**DNB considers its green bonds as complying with the Paris Aligned Benchmarks Exclusions Criteria<sup>8</sup>.**

<sup>7</sup> Green covered bonds are allocated solely to green residential buildings situated within the boligkreditt antity and green unsecured bonds (senior and Tier 2) are allocated to all Use of Proceeds categories (minus any green residential buildings already allocated to green covered bonds). DNB ensures on a best effort basis that Green Covered Bonds will be allocated to assets within the covered bond cover pool (NOK 95,922m situated within the cover pool). For unsecured green bonds, DNB may allocate towards Eligible Green Loans situated within DNB Boligkreditt, as per the guidance laid out in the ICMA Principles Guidance Handbook November 2024 (2.1.8 & 2.1.9): (<https://www.icmagroup.org/assets/documents/Sustainable-finance/2024-updates/The-Principles-Guidance-Handbook-November-2024-041124.pdf>).

<sup>8</sup> DNB notes ESMA's latest communication in Dec 2024 on assessing compliance with the PAB exclusions for green bonds that are not marketed under the EU Green Bond Standard. This guidance mentions that a 'look through' approach may should be used to assess compliance with all the PAB exclusions criteria (except for part (c)), which is interpreted to mean that the exclusionary screening may be done at a green asset/project level only. On this basis, DNB has not assessed or applied these PAB exclusion criteria at the issuer level, i.e. in respect of DNB. Furthermore, given the positive screening approach applied in the green bond framework for eligible green proceeds assets and projects, this implies that any negative screening in accordance with the PAB exclusions is not necessary, as the criteria in the framework are inherently fitting within the PAB exclusionary criteria.

ESMA's guidance notes that part (c) of the PAB exclusions criteria is not in scope for this 'look through' approach, which implies that this criteria is only applied at the issuer level. DNB has committed to the UN Global Compact and the OECD guidelines for multinational enterprises within its Sustainability Group Policy. DNB is not aware of any benchmark administrators deeming DNB in violation of the UN Global Compact / OECD guidelines for multinational enterprises.
