Group strategy

Business idea

DnB NOR will be customers' best financial partner and will meet their needs for financial solutions

DnB NOR's strengths are a local presence and a full range of services.

DnB NOR has a unique platform in the Norwegian market:

- a high market share in all segments
- the largest customer base
- the most extensive distribution network

Common value base and culture

Team spirit, simplicity, value creation

DnB NOR's shared values describe what should distinguish the organisation and work processes both internally and in relation to customers

Strategy

*Utilise growth potential and improve cost efficiency in Norway
Exploit international growth opportunities*

Growth in home market:	Introduce new products and services, strengthen distribution and market positions, utilise the full range of products
Cost efficiency in Norway:	Optimise customer processes and distribution, streamline IT, reorganise operational processes
International growth:	Global growth in selected industries built on core competencies: shipping, energy and seafood. Strengthen position in the Nordic and Baltic regions

Financial targets

*The financial targets reflect the aim to create shareholder value. The Group seeks to achieve a return on equity and share price increases that are competitive in a Nordic context.
The long-term targets are:*

NOK 20 billion in pre-tax operating profits before write-downs in 2010:

- Return on equity above 16 per cent from 2008
- 10 per cent average annual growth in pre-tax operating profits before write-downs

Other ambitions:

- A cost/income ratio below 46 per cent by the end of 2010

Capital strategy and dividend policy:

- A core capital ratio of approximately 6.5 per cent
- Dividend payments representing approximately 50 per cent of annual profits
Dividends will be determined on the basis of expected profit levels in a normal situation, external parameters and the need to maintain capital adequacy at a satisfactory level.
- AA level ratings for long-term debt for DnB NOR Bank ASA

Legal structure

In accordance with the requirements of the Norwegian regulatory authorities, the banking, asset management and life insurance activities of the DnB NOR Group are organised in separate limited companies under the holding company DnB NOR ASA. Banking activities are organised in DnB NOR Bank ASA. All asset management activities are organised under a common holding company, DnB NOR Kapitalforvaltning Holding AS. Vital Forsikring ASA offers life insurance and pension saving products, both products with guaranteed returns and products with a choice of investment profile. Vital Skade AS offers non-life insurance as part of a total product package for retail and corporate clients and operates as an agent for domestic and foreign insurance underwriters. The chart below shows the legal structure of the DnB NOR Group at end-March 2008.

DnB NOR Group - legal structure at end-March 2008

1) Major subsidiaries only. Ownership 100 per cent unless otherwise indicated.

2) Included in DnB NOR Group as from end-June 2007.

3) Included in DnB NOR Group as from end-December 2007.

Group business structure

The activities in DnB NOR are organised in the business areas Corporate Banking and Payment Services, Retail Banking, DnB NOR Markets and Life and Asset Management. The business areas operate as independent profit centres and have responsibility for serving all of the Group's customers and for the total range of products. DnB NOR is regarded as a separate profit centre.

Operational tasks and group services are carried out by the Group's staff and support units, which carry out infrastructure tasks for the operative units as well as operational tasks providing cost efficiencies when undertaken for several business areas. In addition, they perform functions for governing bodies and group management. The business areas have the opportunity to influence staff and support units in the Group by changing their demand patterns and levels of ambition.

The operational structure of DnB NOR deviates from its legal structure as activities in subsidiaries fall in under the business area relevant to the company's primary operations. Activities in some subsidiaries are divided between the relevant business areas. This applies, for example, to Nordlandsbanken, where corporate market activities are included in Corporate Banking and Payment Services while retail market activities are included in Retail Banking.

2) Including the effect of the 12 929 907 shares issued on 26 March 2004 in connection with the subscription rights for employees in the former DnB Group and the effect of 5 181 408 shares issued in October 2004 in connection with the subscription rights programme for employees in the former Gjensidige NOR Group.

3) The Annual General Meeting on 24 April 2007 authorised the Board of Directors of DnB NOR ASA to acquire own shares for a total face value of up to NOK 1 332 653 615, corresponding to 10 per cent of share capital. The shares may be purchased through the stock market. Each share may be purchased at a price between NOK 10 and NOK 150. The authorisation was valid for a period of 12 months from 24 April 2007. Acquired shares shall be redeemed in accordance with regulations on the reduction of capital. An agreement has been signed with the Ministry of Trade and Industry for the redemption of a proportional share of government holdings to ensure that the government's percentage ownership does not change as a result of the redemption of repurchased shares. DnB NOR has no outstanding subscription rights.

4) RARORAC (Risk-Adjusted Return On Risk-Adjusted Capital) is defined as risk-adjusted profits relative to risk-adjusted capital requirement. Risk-adjusted profits indicate the level of profits in a normalised situation.

5) RORAC (Return On Risk-Adjusted Capital) is defined as profits for the period relative to risk-adjusted capital requirement. Profits for the period are exclusive of profits attributable to minority interests and are adjusted for the period's change in fair value recognised directly in equity and for the difference between recorded interest on average equity and interest on risk-adjusted capital.

6) Closing price at end of period relative to annualised earnings per share.

Accounting principles etc.

Accounting principles

The first quarter accounts have been prepared according to IFRS principles as approved by the EU, including IAS 34 - Interim Financial Reporting. All figures presented are based on such principles, except where explicitly stated otherwise. A description of the accounting principles applied by the Group in preparing the accounts is found in the annual report for 2007.

Valuation of bond investments

In the wake of the US sub-prime crisis, the bond market has become significantly less liquid than was previously the case, which was particularly notable in the first few months of the year. This means that prices obtained from brokers are based to a lesser extent on transactions in an active market. Observable transactions give limited price information, as such transactions in many cases are of an enforced nature. Prices obtained from brokers still form the basis for valuations, but prices have been set without the broker undertaking to purchase the assessed volumes.

Estimates

When preparing the consolidated accounts, management makes assessments and estimates and prepares assumptions that influence the effect of the accounting principles applied and thus the recorded values of assets and liabilities, income and expenses. Notes 1 and 2 in the annual report for 2007 give a description of important estimates and assumptions.

Comparable figures have not been restated following the acquisition of Skandiabanken Bilfinans in 2008 and BISE Bank, Svensk Fastighetsförmedling and SalusAnsvar in 2007.

- 1) Perpetual subordinated loan capital securities can represent up to 15 per cent of core capital. The excess will qualify as perpetual supplementary capital.
- 2) As at March 31 2008 calculations of capital adequacy include a total of NOK 662 million in subordinated loan capital in associated companies, in addition to subordinated loan capital in the Group's balance sheet.
- 3) Upon implementation of NRS 6A (IAS 19) in 2005, unrecognised actuarial gains/losses for pension commitments were charged to equity in the accounts. The Ministry of Finance has established a transitional rule whereby one-fifth of the amount recorded against equity can be included in capital adequacy calculations in 2008.
- 4) Primary capital and nominal amounts used in calculating risk-weighted volume deviate from figures in the DnB NOR Group's accounts, as associated companies which are assessed in the accounts according to the equity method, are assessed according to the gross method in capital adequacy calculations.

Due to transitional rules, the minimum capital adequacy requirements for 2007, 2008 and 2009 cannot be reduced below 95, 90 and 80 per cent respectively relative to the Basel I requirements.

Basel II implementation - further progress

A major reduction in risk-weighted assets is expected upon full implementation of the IRB system.

Below is a time schedule for the reporting of portfolios according to the IRB approach.

	2008	2009	2010

Taxes

The DnB NOR Group's tax charge for the first quarter of 2008 was NOK 170 million. The tax charge is generally based on an anticipated average tax rate of 23 per cent of pre-tax operating profits. The estimate for the full year has been maintained in spite of the weak stock markets during the first quarter, which could affect the relative tax charge. The estimate is based on the assumption that the stock markets will normalise during 2008.

NOK 127 million in excess estimated taxes for 2007 was taken to income in the first quarter accounts. The correction can be viewed in light of new rules for carrying forward tax credits for withholding tax paid in countries outside Norway.

Section 3

DnB NOR Group - business areas

Unless otherwise specified,
figures are based on IFRS

Business areas – financial performance

The operational structure of DnB NOR includes four business areas, which are independent profit centres and carry responsibility for customer segments served by the Group and the products offered. The business areas are: Corporate Banking and Payment Services, Retail Banking, DnB NOR Markets and Life and Asset Management. In addition, DnB NORD, which was incorporated in the Group from year-end 2005, is reported as a separate profit centre.

Selected income, expenses and balance sheet figures for the business areas have been prepared on the basis of internal financial reporting for the functional organisation of the DnB NOR Group.

Return on capital for the business areas are presented in the descriptions of each area in this section. For Corporate Banking and Payment Services, Retail Banking, DnB NOR Markets and DnB NORD, return on capital BIS is measured as the business area's profits after taxes relative to average capital requirements according to BIS rules (6.5 per cent capital requirement), while for Life and Asset Management (Vital and DnB NOR Asset Management), the calculations are based on average recorded equity.

In addition return on risk-adjusted capital is presented for each business area. Return on risk-adjusted capital is the key financial ratio for the business areas in internal governance and follow-up of operations. Return on risk-adjusted capital is defined as each area's profits after taxes relative to the calculated risk-adjusted capital. The risk-adjusted capital requirement is based on the risk involved in operations in accordance with DnB NOR's total risk model.

Internal pricing

DnB NOR's financial management model and operational organisation entail the sale of products and services between the business areas in the Group. The pricing of such intra-group transactions is regulated by internal agreements based on market terms.

Certain customers and transactions of major importance require extensive cooperation within the Group. To stimulate such cooperation, net income relating to some of these customers and transactions is recorded in the accounts of all relevant business areas. This refers primarily to income from customer trading in DnB NOR Markets. In the first quarter of 2008, such income totalled NOK 415 million. Double entries are eliminated in the group accounts.

Services provided by staff and support units will as far as possible be scaled and priced according to use. Joint expenses incurred by group staff units and other group expenditures that cannot be debited according to use, are charged to the business areas' accounts on the basis of special distribution formulas. Costs relating to the Group's equity transactions, including strategic investments, and direct shareholder-related expenses and costs concerning the Group's governing bodies are not charged to the business areas.

2) Assets under management include total assets in Vital.

3) Total operating expenses relative to total income.

4) Deposits from customers relative to net lending to customers.

5) Return on capital is calculated on the basis of allocated capital. Allocated capital for Corporate Banking and Payment Services, Retail Banking, DnB NOR Markets and DnB NORD is calculated as 6.5 per cent of risk-weighted volume. Recorded equity is used for Life and Asset Management.

6) Estimated return on capital is based on profit after tax. A tax rate of 28 per cent is applied for Corporate Banking and Payment Services, Retail Banking, DnB NOR Markets and DnB NOR Asset Management. A tax rate of 20 per cent has been used for DnB NORD with effect from the second quarter of 2007, compared with 15 per cent for previous periods, while accounted taxes are applied for Vital.

7) RORAC (Return On Risk-Adjusted Capital) is defined as profits for the period relative to risk-adjusted capital requirement.

8) As a consequence of the reorganisation of the Group in June 2007, 405 and 444 full-time positions respectively have been transferred from Corporate Banking and Payment Services and Retail Banking to Group Centre. As the services are repurchased, there is a limited effect on operating expenses in the business areas, and the presented figures have thus not been adjusted.

9) An increase of 240 full-time positions in Retail Banking resulting from the acquisition of Svensk Fastighetsförmedling and SalusAnsvar in 2007.

Corporate Banking and Payment Services

Corporate Banking and Payment Services serves Norwegian enterprises in all segments, Swedish medium-sized and large corporates and international businesses where DnB NOR has or can build a competitive advantage based on relationships, expertise or products - alone or in cooperation with partners.

DnB NOR holds a strong position in all segments of the Norwegian corporate market, and is one of the world's leading shipping banks. Corporate Banking and Payment Services is organised in nine divisions and two subsidiaries; DnB NOR Finans and Nordlandsbanken. Leif Teksum, group executive vice president, heads the business area.

Corporate Banking and Payment Services aims to be the customers' best partner, meeting their needs for financial solutions in the Norwegian and Swedish markets and in selected international markets.

Norway and Sweden are the main countries where DnB NOR seeks growth through customer acquisition and by being a broad provider of everyday banking and financial services. In addition the Group has growth ambitions internationally within defined industries such as shipping, energy, seafood and certain other sectors where competitive advantages and a substantial knowledge base provide growth potential.

Comments to the financial performance in the first quarter of 2008

- Corporate Banking and Payment Services showed sound performance in the first quarter of 2008 and achieved growth in pre-tax operating profit of 6.0 percent compared with the corresponding period last year. This includes a negative contribution of NOK 309 million from Eksportfinans, reflecting both DnB NOR's ownership share and the guarantee issued for bonds held by Eksportfinans. Bolstered by an expanding Norwegian economy, the high level of activity and continuing strong growth in volumes contributed to a rise in profits.
- Net interest income from ordinary operations was up NOK 344 million from the first quarter of 2007. There was strong volume growth in both lending and deposits. In spite of strong competition, average combined spread increased by 0.05 percentage points compared with the first quarter of 2007 to 1.82 per cent in the first quarter of 2008. Compared with the fourth quarter of 2007, the margin increased by 0.02 percentage points.

- There was a high level of customer activity. Adjusted for the negative contribution from Eksportfinans, net other operating income in the first quarter of 2008 was up 10.2 per cent from the corresponding period last year. There was growth in income from foreign exchange and interest rate products, custody and payment services, while income from corporate finance activity and syndication declined compared with the corresponding period last year. Income from guarantees and cash handling activities showed steady development.
- Operating expenses increased by NOK 180 million in the first quarter of 2008 compared with the corresponding period of 2007. International expansion, including the acquisition of Skandiabanken Bilfinans in Sweden and Norway, has resulted in rising staff numbers and increased investments. In addition, there was a strong growth in wages in Norwegian operations. Solid growth in operational leasing gave a significant increase in depreciation costs.
- Net write-downs on loans and guarantees totalled a net loss of NOK 73 million and net gains on fixed assets totalled NOK 9 million in the first quarter of 2008.
- Average lending and guarantees to customers increased by NOK 112.1 billion and average deposits were up NOK 31.6 billion from the first quarter of 2007. Adjusted for exchange rate movements average lending and guarantees increased by NOK 126.9 billion. A total of NOK 13.4 billion in syndicated credits, defined as the difference between underwriting and final hold, was arranged for customers in cooperation with DnB NOR Markets in the first quarter of 2008. Furthermore, commercial paper and bonds for a total value of NOK 23.2 billion were issued in the same period.

Customers and market developments

- DnB NOR is the leading financial institution in the market for large Norwegian corporates. In addition to the Norwegian and Swedish markets, Corporate Banking and Payment Services is offering services in New York, Houston, London, Singapore, Shanghai, Copenhagen, Hamburg and Helsinki. DnB NOR is also represented in Murmansk in Russia, through the subsidiary DnB NOR Monchebank, which is licensed to engage in banking operations throughout Russia.
- The cooperation between DnB NORD and Corporate Banking and Payment Services has strengthened DnB NOR's position in the Baltic area (Lithuania, Latvia and Estonia) and in Poland, supporting DnB NOR's aim to become one of the most attractive suppliers of financial services throughout this region.
- Through a wide distribution network, DnB NOR offers customers local and regional expertise as well as national sector analysis and a broad product range. In Sweden DnB NOR is expanding its products and services to Swedish corporates. DnB NOR has offices in both Stockholm and Gothenburg to serve existing clients and promote continuing growth in this part of Sweden, which is close to DnB NOR's home market.
- The strong position in the Norwegian SME market was maintained through the first quarter of 2008. A total of 1 685 new clients were acquired during this period.
- During the first quarter of 2008 the loyalty programme/retention programme Partner Start, Landbruk, Basis and Pluss in DnB NOR increased by 1 429, reaching a total of 17 793 programme.
- Corporate Banking and Payment Services aims to be the preferred provider of Internet services to corporate clients. Small and medium-sized companies are increasing their use of electronic services while having less need for manual services. In 2007, 49 000 companies made more than 104 billion transactions in DnB NOR's corporate Internet bank.
- DnB NOR is committed to maintain and further enhance a strong local presence. Local management and employees have extensive pertinent expertise and are authorised to grant credits that meet the requirements of the SME segment as well as larger clients.
- Nordlandsbanken strengthen DnB NOR's position in the northernmost part of Norway. The subsidiary serves the county of Nordland and operates under the brand name Nordlandsbanken.

Organisation and distribution

Corporate Banking and Payment Services is organised in nine divisions:

- The Nordic Corporate Division and the International Corporates and Institutions Division serve large Norwegian corporates, the public sector, international companies that do business in Norway, international customers in the oil and energy, telecom, media and technology, healthcare, pulp and paper industries as well as financial institutions.
- The Shipping, Offshore and Logistics Division serves Norwegian and international shipping, offshore and maritime logistics companies. DnB NOR's operations in New York, London, Singapore and Shanghai are organized in this division.
- Regional Division East and Regional Division Coast serve SME's and larger companies based on geographical location. International companies within seafood are also served by Regional Division Coast through the international offices.
- The Sweden Division serves large and medium-sized businesses in Sweden.
- The Workout Division is responsible for supporting the customer divisions in their work on high-risk customers and non-performing commitments.
- The Telephone & Online Banking, Market and Product Division is responsible for cash management, marketing, telephone and online banking.
- Administration and Payment Services is responsible for strategic management support and has group-wide responsibility for payment products and infrastructure projects affecting both retail and corporate customers. DnB NOR's operations in Finland, Denmark, Germany and Russia are also organised in this division.

Products

Corporate Banking and Payment Services offers customers a broad range of financial services, including lending, bond issues, syndication of loans, deposits, cash management, Trade Finance and Structured Finance, eCommerce products, commercial real estate broking services, FX/treasury products, corporate finance and acquisition finance, either directly or in cooperation with DnB NOR Markets.

Through DnB NOR Markets Inc. in the US, DnB NOR offers investment banking services, including mergers and acquisitions and advisory services, to international clients, particularly in the shipping and energy sectors.

International growth

The DnB NOR Group aims to expand its presence in international markets and increase the share of income from international operations. Most of this income growth will be generated in the Corporate Banking area. In 2010 the estimated income from international business will represent approximately 20-25 per cent of DnB NOR's total gross income. The primary contributions to growth will come from two main axes: corporate banking – industry dimension, and Universal bank – the Nordic/Baltic region. Growth will be based on doing more of what the group already does well today – an incremental approach to growth.

The international growth in DnB NOR will be based on comparative advantages in the form of expertise on various customer segments and industries, special product know-how or established relationships where it is logical to accompany customers expanding outside Norway. The group is the preferred partner for international customers doing business in Norway and will use these relationships internationally. Corporate banking will build on the core industries; shipping, energy and seafood. DnB NOR is opening a branch office in Santiago in June 2008 and representative offices in Athens and Mumbai during the second and third quarter of 2008. These initiatives will strengthen the ability to locally follow up existing clients in shipping, energy and seafood, while creating new business opportunities for the group.

Employees

- The considerable expertise of DnB NOR employees within local business, specific industries, credit risk, customer needs and product offerings is an important competitive advantage of Corporate Banking and Payment Services in the domestic market. Corporate Banking and Payment Services has a broad competence base and is committed to its continuous development. Competence training has top priority, and particular emphasis has been placed on systematic specialised training in credit rating and risk and profitability analyses. In addition there is special emphasis on basic training for new employees.
- Competence has been strengthened in areas that enable Corporate Banking and Payment Services staff to offer customers strategic advice, including training programmes in presentation and communication skills.
- To strengthen the skills of employees working within the important SME segment, the 'SME Academy' is established. More than 600 employees attended in 2006/2007. In the first quarter of 2008 almost 700 employees attended step two in the academy, and the training will also be continued as on the job training based on best practice.
- The importance of empowerment is addressed, and a training programme called 'Wise leadership – My way of being' has been developed. The programme is tailor-made for managers in Corporate Banking and Payment Services. Most of the leaders have completed the programme and are putting their acquired skills into practice. There will be several follow-up activities to implement the skills in the organisation. For employees we offer a lighter version of the programme called Thinking Together.
- In order to support the Groups internationalisation, the extensive programme for short and long-term stays at DnB NORs international offices will be continued.
- At the end of March 2008 the business area had a staff of 2 395 full-time positions, with 1 751 in Norway, of which 576 in subsidiaries, as well as 644 full-time positions in international units.
- Incentive structures and balanced scorecards are tailored to the goals of the different divisions. In order to maximise performance and attract the best employees, remuneration varies.

Cooperation with other group entities

Through extensive cooperation with other business areas and support functions in the Group, corporate customers are offered a broad range of financial services, particularly within corporate finance, FX and interest rate instruments, life insurance and pension products.

Retail Banking

Retail Banking, serving private customers and small companies under the main brand names DnB NOR, Postbanken and Nordlandsbanken, is Norway's largest retail bank. Åsmund Skår, group executive vice president, is head of the business area. Retail Banking aims to maintain its leading market position and stand out as the customers' best financial partner.

Good advisory services, loyalty programmes and relevant dialogue, are central tools building strong customer relations. Customer satisfaction is vital to the bank. Continual efforts, i.e. introduction of new products and distribution channels, are being made to improve the customer satisfaction. DnB NOR should be easily accessible, and its distribution channels should be further developed to reflect customer preferences.

Entering 2008, the outlook for the Norwegian economy is still bright. We have seen four years of strong growth, and the pace going into 2008 is high. High capacity utilisation, somewhat slower growth abroad, increased interest rates and a cooling housing market will curb growth. However, high commodity prices, strong earnings, a tight labour market and high-income growth pull in the other direction. Therefore, a significant slowdown in the Norwegian economy is not expected.

Organisation and distribution

Retail Banking offers a wide range of financial products and services through Norway's largest distribution network, in terms of number of contact points with customers. The major distribution channels are:

- DnB NOR's, Postbanken's and Nordlandsbanken's branch offices
- The postal network
- Internet and telephone
- Investment Advisory Services

DnB NOR Bank ASA and Norway Post have an agreement relating to the distribution of financial services through the postal network. The agreement is mainly based on transaction-specific prices and a common aim to increase the number of financial services distributed through the postal network, and will remain in force until December 2012.

Postbanken and Norway Post have established joint service solutions provided through 1 160 in-store postal outlets where customers can carry out everyday banking transactions in their local supermarkets. 1.1 million payment transactions were carried out through these channels in the first quarter of 2008. Norway Post has entered into an agreement with DnB NOR for the purchase and installation of up to 2 500 payment terminals for use in post offices and in-store postal outlets.

Production, staff and support functions are largely centralised in cost-efficient units.

News

- As the first Norwegian bank, DnB NOR has launched a banking service on MSN (Windows Live Messenger). The service is called BankTab and is aimed at the young adult segment. It is an advertising module showing the services and products offered to this target group.
- The new subsidiary, Svensk Fastighetsförmedling has won first prize for best website in the Web Service Award, Sweden's largest survey of websites.
- DnB NOR will establish its own non-life insurance company by the end of 2008.
- BankID, which is a personal electronic proof of identity for secure identification and signatures on the Internet, will be used by most of our Internet bank customers by the end of 2008.
- DnB NOR and Telenor are working with MasterCard World Wide to make it possible to use mobile phones as an alternative to cards when making payments in the shops.
- The new concept of in-store banking outlets is based on an agreement between DnB NOR and NorgesGruppen. In-store banking outlets will be nationwide during 2008 with the planned implementation of 1 200 outlets.

Employees

As at the end of March 2008, Retail Banking staff represented 3 883 full-time positions, including SalusAnsvar, Svensk Fastighetsförmedling and Sweden Retail.

To ensure a high level of professional expertise and advisory services of a superior ethical standard, DnB NOR has initiated certification of advisers in Retail Banking. All employees who are primarily engaged in advising retail customers will be certified.

Cooperation with other group entities

Cross-selling of products is one of the major strengths of the DnB NOR Group. Through its distribution network Retail Banking offers:

- Asset management services (DnB NOR Asset Management)
- Life and pension insurance (Vital)
- Financial instruments (DnB NOR Markets)
- Car loans (DnB NOR Finans)

Residential real estate broking

DnB NOR's real estate broking activities are coordinated by DnB NOR Eiendom AS, a market leader within the real estate broking business in Norway. DnB NOR Eiendom had 98 outlets located in DnB NOR branches as at the end of March 2008. Postbanken Eiendom has established 32 real estate broking customer service centres.

After the acquisition of Svensk Fastighetsförmedling DnB NOR became the largest provider of real estate brokerage services in the Nordic region, and the introduction of housing loans for Swedish bank customers is an important step to build a customer portfolio and a long-term income base in the Swedish market. Svensk Fastighetsförmedling had 207 outlets in Sweden at end-March 2008.

In addition to fee income, real estate broking operations generate business in the form of residential mortgages and savings.

Comments to the financial performance in the first quarter of 2008

- The financial market turmoil resulted in a weaker first-quarter performance for DnB NOR Markets than in the year-earlier period. The decline in income reflected unrealised mark-to-market losses of NOK 1 566 million on bonds due to a general increase in credit spreads, compared with a gain of NOK 28 million in the corresponding period last year. The mark-to-market loss will be taken to income over the residual maturity of the bonds, which averages three years.
- Other revenues increased 21 per cent to NOK 1 257 million in the first quarter of 2008, from NOK 1 035 million in the year-earlier period.
- Income on customer business remained high in spite of a lower level of activity within capital markets and a reduction in income from the sale of structured and alternative investment products. There was healthy demand for currency, interest rate and commodity hedging products.

Income distribution DnB NOR Markets**Products and services**

- Currency, interest rate and commodity derivatives. During the fourth quarter of 2007, DnB NOR Markets entered into its first freight derivative contract with a client. In addition, further metal, gas and power derivative contracts were entered into during the first quarter of 2008.
- Securities and other investment products.
- Debt and equity financing in capital markets, as well as mergers and acquisitions and other advisory and corporate finance services.
- Custodial and other securities services.

Value-at-Risk

Market risk arises as a consequence of open positions in foreign exchange, interest rates and equities. The risk is linked to variations in financial results due to fluctuations in market prices or exchange rates. Market risk exposures for DnB NOR Markets, i.e. DnB NOR Bank's trading portfolio/activities, remained at a moderate level in the first quarter of 2008.

Interest rate sensitivity

The value of financial investments recorded on and off the balance sheet is affected by interest rate movements. The table below shows potential losses for DnB NOR resulting from parallel one percentage point changes in all interest rates. The calculations are based on a hypothetical situation where interest rate movements in all currencies are unfavourable for DnB NOR relative to the Group's positions. Also, all interest rate movements within the same interval are assumed to be unfavourable for the Group. The calculations are based on the Group's positions as at 31 March 2008 and market rates on the same date.

Comments to the financial performance in the first quarter of 2008

Life and Asset Management recorded an overall pre-tax operating loss of NOK 277 million in the first quarter of 2008, which represented a reduction of NOK 759 million from the year-earlier period. This comprised a loss of NOK 361 million in Vital and a profit of NOK 84 million in DnB NOR Asset Management. Descriptions of the financial performance of Vital and DnB NOR Asset Management are divided into two separate sections below.

Vital

Vital offers group pension schemes to businesses and the public sector, the most important products being defined-benefit and defined-contribution occupational pension schemes. Vital also offers employers' liability insurance to the corporate market. In the retail market, long-term savings alternatives are offered in the form of individual savings products with guaranteed rates of return and products with a choice of investment profile.

Vital comprises Vital Forsikring ASA including subsidiaries. As from 1 January 2007, operations in Vital Forsikring ASA and Vital Link were combined following the merger of the two companies. Subsequently, Vital Forsikring provides both products with guaranteed returns and products with a choice of investment profile. Tom Rathke is managing director of Vital Forsikring and group executive vice president in DnB NOR.

Vital aims to be Norway's strongest provider of pension savings. Vital seeks continued growth within the company's business segments and aims to deliver competitive results to its policyholders and owner. Devoting further efforts to improving cost efficiency, providing top-quality advisory services, maintaining high levels of service and customer relationship management and serving as an attractive entry portal for customers into the DnB NOR Group will be instrumental in reaching these targets.

Financial results

Vital Forsikring ASA including subsidiaries is fully consolidated in the DnB NOR Group's accounts.

New regulations were introduced for the life insurance industry as from 1 January 2008. The accounts for Vital for 2008 have been adapted to the new regulations. Figures for previous periods have not been restated.

Comments to the financial performance in the first quarter of 2008

- Profit performance in Vital reflected the financial market turmoil. There was a pre-tax operating loss of NOK 361 million after additional allocations of NOK 1 344 million had been taken to income.
- The value-adjusted and recorded returns for the common portfolio were both negative at 1.8 per cent and 0.1 per cent respectively. The value-adjusted return on the corporate portfolio was 1.3 per cent.
- The risk result was positive at NOK 111 million, an increase from NOK 13 million in the first quarter of 2007.
- The administration result was negative at NOK 17 million, compared with a negative NOK 20 million in the year-earlier period.
- Total premium income increased by 4.6 per cent from the first quarter of 2007, to NOK 9.3 million. Premium income for group pensions was up 18 per cent to NOK 7.6 billion. The main factor behind the increase was the transfer of funds from government schemes and an increase in premiums due. Premium income in the individual market declined by 38 per cent to NOK 1.5 billion due to uncertainty surrounding the parameters for individual pension savings combined with the negative financial market trend.
- Due to surrenders of individual market products and negative value-adjusted returns, there was a 1.7 per cent decline in total assets from end-December 2007, to NOK 229 billion. Surrenders of individual market products totaled NOK 3.0 billion and primarily reflected rising interest rate levels and new tax rules for individual pension savings.
- Solvency capital totalled NOK 17.2 billion at end-March 2008. Due to the negative financial market trend, the securities adjustment reserve was reduced by NOK 3.3 billion at end-December 2007 to zero at end-March 2008.
- There was a net inflow of transfers of NOK 1.4 billion, which mainly reflected the transfer of funds from government schemes.
- Vital's market share of policyholders' funds was 33.6 per cent at end-December 2007, compared with 34.7 per cent at end-December 2007.

1) The figures encompass Vital Forsikring ASA including subsidiaries as included in the DnB NOR Group accounts before eliminations for intra-group transactions and balances.

2) In connection with the transition to new regulations for the life insurance industry as from 1 January 2008, an external appraisal was made of all buildings owned by Vital. The review was carried out during the third and fourth quarters of 2007. No new, complete external valuation was made in the first quarter of 2008. The values are set based on completed transactions, rent level trends and external brokers' valuations in connection with current sales processes.

Products and organisation

- Group pension schemes to businesses, adapted to customer needs for defined-benefit and defined-contribution. In addition, Vital offers employer's liability insurance in the corporate market.
- Long-term savings alternatives in the form of individual pension agreements and annuities in the retail market.
- Products are offered with guaranteed returns or with a choice of investment profile.
- Risk products in both the corporate and individual markets.
- Savings products from other units in the DnB NOR Group, including mutual funds from DnB NOR Asset Management and equity-linked bonds from DnB NOR Markets.

The business area is represented in most parts of Norway through sales offices and provides services through DnB NOR's and Postbanken's distribution networks and independent agents, as well as via the Internet.

In close cooperation with the rest of the Group, Vital aims to increase its international presence. Vital has had operations in Sweden for a few years and is planning to expand in this market. As part of DnB NOR's international initiatives, Vital established operations in Latvia and Lithuania, based on distribution via DnB NORD's branch network.

During 2006, it was decided to remove tax concessions on individual pension products. New and lower limits for tax incentive savings products have been set, and rules governing such products are being drawn up. Vital is preparing new products with tax incentives and will launch these as soon as the new rules have been approved.

New regulations were introduced for the life insurance industry as from 1 January 2008. The objectives behind the new Insurance Act are threefold: a clearer distinction between policyholders' funds and company funds, a clearer division of risk between policyholders and the company and more transparent pricing of life insurance products.

Main issues of the new regulations are:

- Policyholders' funds are separated from the company's funds.
- Individual products established before 1 January 2008 will be subject to the same profit sharing as earlier (maximum 35 per cent of the company's total risk result, administration result and interest result). Paid-up policies will be subject to modified profit sharing (maximum 20 per cent of the company's interest result).
- For corporate and municipal group pensions, all returns on capital in excess of the guaranteed rate of return are returned to the policyholders. The price of guaranteed rate of return and profits of risk business and operations are fixed in advance. Any risk premium is either returned in its entirety to the policyholders, or the company may retain 50 per cent of profits as allocations to the risk equalisation fund. New individual contracts are treated in the same way.
- The regulations entail no changes for risk products and products with investment choice.
- According to the new regulations, the company may offer group pension products with investment choice.

In the longer term, the new regulations will have a positive effect on company earnings and make it easier to adapt products to meet customer needs.

Cooperation with other group entities

- By taking advantage of the strength of the DnB NOR Group's total distribution network, Vital is well positioned to enjoy continued market growth.
- Vital's growth in the retail market is not least due to the business area's extensive distribution network, where other business areas in the Group play a principal role.
- In the first quarter of 2008, other business areas accounted for 47.0 per cent of the sales of Vital's products in the retail market, compared with 65.7 per cent in the corresponding period of 2007.

Employees

Vital gives priority to retaining and developing a high level of expertise within insurance products, management and other relevant areas of competence. At the end-March 2008, Vital had a staff of 865 full-time positions.

Balance sheets and capital adequacy according to NGAAP

The analyses below are prepared on the basis of accounting principles according to Norwegian accounting legislation etc. (NGAAP).

Kredittilsynet and the Ministry of Finance have not adapted solvency margin capital or capital adequacy regulations to IFRS. The Norwegian Ministry of Finance is expected to establish guidelines for further efforts to determine capital requirements for insurance companies up until the introduction of Solvency II.

Organisation

- One holding company, DnB NOR Kapitalforvaltning Holding AS, with separate asset management companies in the main markets.
- Customer activity is concentrated in Norway, Sweden and Luxembourg. In order to provide competitive global asset management, investment operations have also been established in London, New York, Hong Kong and Chennai.
- A combination of regional and sector-oriented management teams with a presence in all major financial markets.
- Asset management services are provided through channels adapted to the various markets:

Retail clients in Norway

- DnB NOR's extensive network of branches and regional financial services centres.
- Post offices and in-store postal outlets.
- The Internet.
- External channels including brokers, investment advisers and regional and local savings banks.

Retail clients in Sweden

- Local distributors.

Institutional markets in Sweden and Norway

- The business area's own sales force and, in Norway, through cooperation with Corporate Banking and Payment Services.

Employees

- 301 full-time positions at the end of the quarter.

Cooperation with other group entities

- DnB NOR's extensive network represents the major distribution channel in the Norwegian retail market.
- DnB NOR Asset Management and Corporate Banking and Payment Services cooperate in providing a complete range of financial services to corporate clients.
- DnB NOR Asset Management manages Vital's equity and bond portfolios.
- DnB NOR Asset Management cooperates with other group entities in developing products adapted to the various markets.

DnB NORD

DnB NORD was established in December 2005 and is owned 51 per cent by DnB NOR and 49 per cent by Norddeutsche Landesbank, NORD/LB. The bank is headquartered in Copenhagen and is headed by Sven Herlyn.

The Baltic States and Poland are important markets experiencing strong growth. An increasing number of DnB NOR's customers are establishing operations in this area, and DnB NORD is an important strategic initiative in accompanying customers into one of Europe's most dynamic regions. One important rationale for the establishment of DnB NORD is to become a leading bank for cross-border solutions around the Baltic Sea. DnB NORD has taken over NORD/LB's operations in Estonia, Latvia, Lithuania and Poland. DnB NORD has a strong market position, as the third largest bank in Lithuania and the fourth largest in Latvia. DnB NORD is also represented in Finland and Denmark, benefiting from the corporate portfolio brought into DnB NORD by DnB NOR and NORD/LB and provides a full service operation for corporate banking.

1) Interest on allocated capital is calculated according to internal DnB NOR capital allocation rules. "Net interest income - ordinary operations" does not include interest on equity.

2) Average balances. Based on nominal values.

Comments to the financial performance in the first quarter of 2008

- Pre-tax operating profit before write-downs was NOK 167 million, up 37.4 per cent from the first quarter of 2007.
- Total income increased by 55.6 per cent to NOK 531 million.
- Operating expenses increased by NOK 145 million to NOK 365 million partly due to increase in the number of employees and to the integration of BISE Bank in Poland.
- Cost/income ratio was 68.7 per cent in the first quarter of 2008 compared to 64.5 per cent in the first quarter of 2007.
- The development in the first quarter of 2008 was influenced by increasing funding costs, reduced growth and increased write-downs on loans.
- Return on calculated BIS capital was 9.5 per cent, lower than in the first quarter of 2007, but higher than the last two quarters in 2007.
- Strong growth in lending volumes in the Baltics and Poland. Average lending increased by NOK 23.7 billion or 60.9 per cent from the first quarter of 2007. Deposits increased by NOK 8.3 billion or 64.2 per cent from the first quarter of 2007.

1) BISE Bank was included in the accounts as from the second quarter of 2007. To ensure that the development in spreads is correctly depicted, loans and deposits in BISE Bank and related interest income have been divided between the first and second quarter of 2007. The effect of the distribution has been reversed under "Other" and explains the changes in net interest income on this line.

2) Based on nominal values excluding lending to and deposits from credit institutions and impaired loans.

Development in lending volumes

Organisation and market

- DnB NORD serves more than 770 000 retail and corporate clients through 173 branches and offices in six countries: Denmark, Finland, Estonia, Latvia, Lithuania and Poland.
- DnB NORD employed 3 329 full-time positions at the end of the first quarter of 2008.
- At year-end 2007 DnB NORD was the third largest bank in Lithuania, number four in Latvia and number 24 in Poland, measured by total assets.
- Over the last several years, the Baltic region has experienced strong economic growth and development. DnB NORD expects continued growth in this area, but particularly in Latvia the growth expectations are more subdued.
