## 1.8.1 Own funds - condensed

Capital adequacy is calculated and reported in accordance with the EU capital requirements regulations for banks and investment firms (CRR/CRD). The regulatory consolidation deviates from consolidation in the accounts and comprises the parent company, subsidiaries and associated companies, excluding insurance companies. Associated companies are consolidated pro rata.

Capital adequacy figures include part of the interim profit. For quarterly figures, 50 per cent of profit have been included in the Common equity Tier 1 capital, up to and including the second quarter of 2023. From 30 September 2023, the highest of the dividend payout ratio of the preceding year and average of the dividend pay-out ratio for the past three years has been deducted from interim profit, in accordance with CRR. The Group's dividend policy has not been changed.

Financial groups that consist of both a credit institution and an insurance undertaking and have been defined by the authorities as a “financial conglomerate” or cross-sectoral financial group, have to report capital adequacy on a consolidated basis. The cross-sectoral calculation tests that the DNB Group complies with both sectoral requirements, the “capital adequacy requirement in accordance with CRD” and “the Solvency requirement”. Intra group capital is excluded from the calculation.
