Accounting changes and other adjustments

Accounting treatment of the acquisition of Nordlandsbanken

DnB acquired all shares in Nordlandsbanken ASA at the end of 2002. The offer price was NOK 35 per share, representing a total of NOK 1 050 million.

In the accounts, the acquisition of Nordlandsbanken is treated according to the purchase method. To establish a basis for the accounting treatment, an analysis was carried out to identify market values above or below book values in the acquired operations and allocate these to the appropriate balance sheet items. Nordlandsbanken's balance sheet as at 31 December 2002 was used to identify approximate values on the transaction date. Based on assessments made in the first and second quarter the market value of the loan portfolio turned out to be NOK 244 million lower than book value. The volume of non-performing and doubtful commitments has been restated based on these assessments. The market value of long-term shareholdings exceeded book value by NOK 15 million. The part of the acquisition cost exceeding recorded equity after value adjustments, costs relating to the acquisition and restructuring provisions are recorded as goodwill in the Group's balance sheet. Goodwill relating to the acquisition will be amortised over ten years based on an analysis of values in the acquired operations as well as the significance of operations for the DnB Group.

Nordlandsbanken's accounts for 2002 reflected the special circumstances leading up to the acquisition by DnB. Pro forma accounts for DnB including Nordlandsbanken will thus not provide an appropriate basis for evaluating Nordlandsbanken's impact on DnB's future accounts. Pro forma accounts for previous periods have therefore not been prepared.

In the formal accounts, Nordlandsbanken has been included as from 1 January 2003, which approximates the implementation date for the acquisition.

Section 3

**DnB Group and
business areas**

Group strategy

Targets

DnB's primary goal is to enhance shareholder value through an attractive and competitive return in the form of dividends and increases in the DnB share price. DnB's strategy targets areas where the Group has or can achieve lasting competitive advantages. DnB aspires to be the preferred partner for Norwegian and selected Nordic customers and international companies' preferred partner in Norway, and will capitalise on its special expertise within selected areas outside the Nordic region.

Alongside profitability, a long-term perspective and team spirit are key strategic elements. DnB's operations should generate added value for shareholders. A long-term approach to customer relationships and market activities will strengthen the Group's customer franchise and provide customer service of superior value. Positive team spirit will give a further impetus to achieving performance targets.

Profitable growth, a more efficient cost base and optimal utilisation of the Group's capital base are vital to the success of this strategy.

Strategic position

DnB has a leading position relative to Norwegian retail and corporate customers. The Group will further consolidate this position by being the best partner to meet customers' financial needs. This partnership will be based on building sound relationships between DnB and customers through distribution and dialogue, providing the best advisory and customer services and offering competitive prices on good overall solutions.

With a wide array of products, DnB is able to fulfill large international companies' financial needs in Norway. On the basis of Norway's position as a shipping nation, DnB has become one of the world's foremost shipping banks. A corresponding position has been built up within the energy sector based on activities in the North Sea. The establishment of DnB Asset Management provides additional opportunities for growth in selected global areas.

Strategic measures

Continual improvement of the product range is essential to ensuring the quality of DnB's customer relationships. DnB will consider offering solutions from other providers of financial services and seeking alliances with other market players to boost efficiency or develop leading products and services in the market. DnB will develop electronic distribution channels to provide ready access for customers.

Within certain areas, DnB will be able to offer products included in other service providers' market offerings. DnB will seek to become an even better supplier of niche products in international markets.

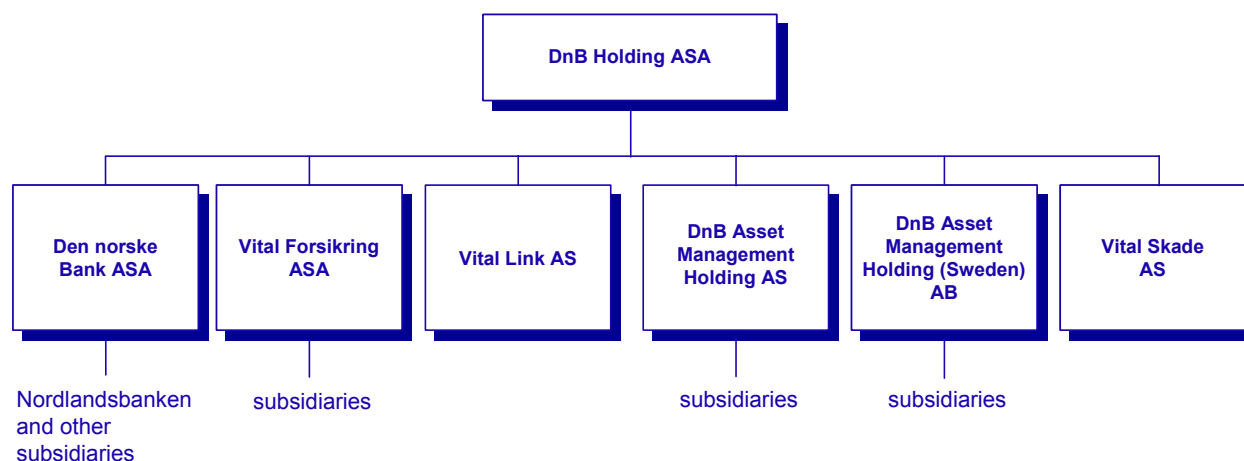

The Group will work to increase cost efficiency through continued everyday improvements in operational procedures, effective purchasing routines, the elimination of products and services and strict priorities with respect to development projects.

DnB will consider expanding and adjusting its customer franchise and range of products and services through structural measures provided that this will lead to increased long-term shareholder value. Additional acquisitions may be an option if such moves would help DnB achieve its long-term targets.

Legal structure

In accordance with the requirements of the Norwegian regulatory authorities, the banking, asset management and life insurance activities of the DnB Group are organised in separate limited companies under the holding company DnB Holding ASA. Banking activities are organised in Den norske Bank ASA, while asset management activities are organised in two companies: DnB Asset Management Holding AS and DnB Asset Management Holding (Sweden) AB. Life insurance activities are carried out by two separate companies: Vital Forsikring ASA (traditional life and pension products) and Fondsforsikringsselskapet Vital Link AS (unit linked products). Vital Skade AS offers non-life insurance as part of a total product package for retail and corporate clients and operates as an agent for foreign insurance underwriters.

DnB Group - corporate structure

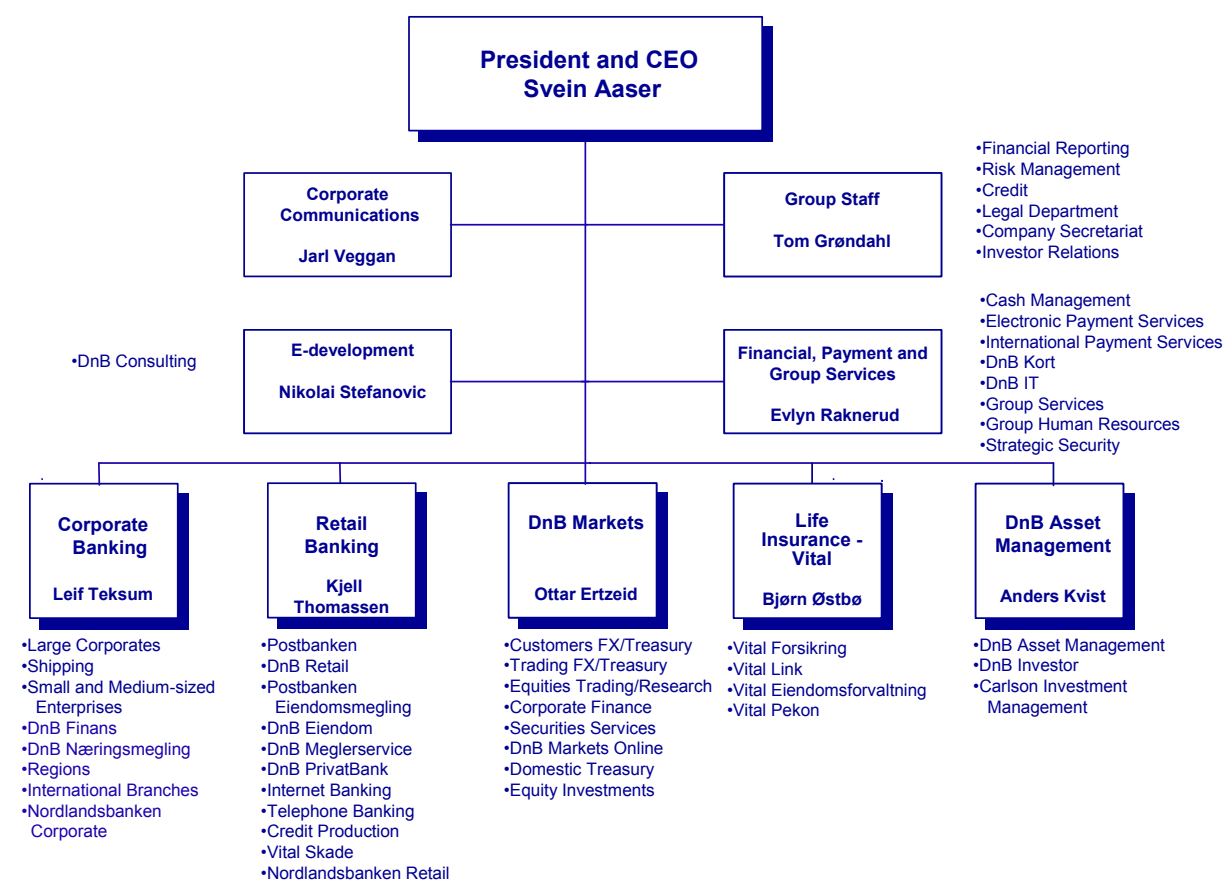

Group structure

DnB is organised into five business areas with responsibility for underlying divisions, departments and subsidiaries. The business areas are independent profit centres subject to specific profit requirements. **Corporate Banking** serves small and medium-sized companies as well as large Norwegian corporations, shipping companies and international corporate customers; **Retail Banking** serves private customers and smaller companies; **DnB Markets** is the Group's capital markets arm; **Life Insurance (Vital)** represents the Group's life insurance operations and **DnB Asset Management** comprises the Group's global asset management operation.

In addition, the Group has support and staff functions organised into separate units. Efforts to increase cross-sales and boost efficiency in the internal supply of products and services are key strategic elements.

- 1) The DnB Group's income, expenses and balance sheet volumes are allocated to the business areas. In the above table some of the income generated in DnB Markets related to foreign exchange/treasury instruments, sales of securities in the primary market, as well as custodial services, is also included in the net other operating income of Retail Banking and Corporate Banking. These double entries are included in the "Other operations" line along with other eliminations and the Group Centre as well as gain/(loss) on DnB's equity investments. The "Other operations" line can be split into the following components:

Amounts in NOK million	Net interest income		Net other operating income		Operating expenses		Pre-tax operating profit/(loss) before losses		Net losses on loans and long-term securities		Pre-tax operating profit/(loss)

The Group Centre line comprises Financial, Payment and Group Services and Group Staff, investments in IT infrastructure and shareholder-related expenses.

The Group Centre also holds the part of the Group's equity, which is not allocated to the business areas. This item produced a lower net interest income in 2003 than the previous year, due to drop in both volume and interest levels.

Amortisation of goodwill for the Group's acquisition of Nordlandsbanken, Skandia Asset Management, Vital and similar fair value adjustments relating to the Postbanken acquisition are not allocated to the business areas. Goodwill related to the acquisition of Nordlandsbanken amounted to NOK 531 million and is amortised over 10 years starting in January 2003. Goodwill related to the acquisition of Skandia Asset Management amounted to SEK 3 402 million and is amortised over 20 years starting in January 2002. Amortisation for the period January-May of 2002 has been charged to equity. Goodwill in Vital is amortised by NOK 25 million each quarter, ending in 2005. The amortisation of Postbanken's fair value adjustments amounts to NOK 12 million per quarter, ending in 2004.

- 2) Nordlandsbanken is presented in accordance with the Group's principles and assessments. Figures include Nordlandsbanken's overall operations before integration with other business units and the transfer of activities to DnB.
- 3) Allocation of equity to the business areas is based on DnB's internal risk assessment model, which assigns risk capital for credit, market, insurance, liquidity and operational risk to the various areas of the Group. The Group's additional equity is mainly a consequence of official capital requirement regulations, but also a necessary cushion for uncertainty in the risk estimates and a buffer to meet future requirements.
- 4) Calculations of return on equity are based on profits after taxes and allocated equity capital. A 28 per cent tax rate is used for Corporate Banking, Retail Banking, DnB Markets, DnB Asset Management and Nordlandsbanken. The tax rate used for Life Insurance - Vital was 10 per cent in 2002 and 15 per cent in 2003, which represents the expected tax rate.
- 5) If the SME segment is included under Retail Banking, the cost/income ratio will be 72.1 per cent. Such adjustment is appropriate when comparing DnB's financial figures with those of international competitors.

Corporate Banking

Corporate Banking serves small, medium-sized and large companies. The business area is organised in three divisions: Large Corporates (incl. commercial properties broking, "DnB Næringsmegling"), Shipping and Regions, and one subsidiary: DnB Finans. The business area is headed by Leif Teksum, group executive vice president.

Corporate Banking's strategy is to be the best financial partner for Norwegian and selected Nordic companies. Within special sectors such as shipping, oil and energy DnB also provides services outside the Nordic region. In addition, the business area wishes to offer DnB's products and expertise to international companies in Norway.

Comments to the financial performance for the January through September period

- Performance reflected sound operations and stringent cost control
- Adjusted for exchange rate movements, there was an increase of 8.8 per cent in loans and guarantees on the corresponding period the previous year
- In cooperation with DnB Markets, a total of NOK 39.1 billion in syndicated credits was arranged for customers, in addition to NOK 31.9 billion in commercial paper and bond issues
- Corporate banking experienced moderate lending growth targeting customers with low credit risk, and the quality of the loan portfolio is still considered satisfactory although risk has risen somewhat
- Deposits were up 5.0 per cent from December 2002
- Net losses on loans and guarantees in the January through September period of 2003 amounted to NOK 678 million and net gains on long-term securities amounted to NOK 10 million. The losses were reduced in the third quarter compared to previous quarters

Customers and market development

- The domestic banking market reflected fierce competition with low demand and pressure on margins
- Developments in the Norwegian economy in the first nine months of 2003 continued the trend from 2002, undermining the financial position of an increasing number of the business area's customers
- Due to the sharp decline in interest rate and the weakening of the NOK exchange rate, the negative trend in Norwegian export industry appears to be levelling off
- Corporate Banking will devote extensive resources to following up asset quality, and will seek growth in the high-quality end of the Norwegian business sector
- Large Corporates leads the market for large Norwegian corporates, offering services in New York, London and Singapore in addition to the domestic market

- Around 60 per cent of Norway's largest corporations used DnB as their main banker in the first nine months of 2003
- DnB is one of the world's largest shipping banks and serves Norwegian and international shipping and offshore clients from offices in Oslo, Bergen, London, New York and Singapore
- Corporate Banking activities in domestic regions target primarily small and medium-sized companies
- In the first nine months of 2003, DnB continued to consolidate its position in this market, and surveys show growing customer satisfaction
- The Internet bank for corporate clients has improved functionality, and the product has received a positive response among clients

Business profile

- Among the world's leading shipping and offshore banks
- Provides commercial and investment banking services to high-quality Norwegian and international shipping and offshore clients from offices in Oslo, Bergen, London, New York and Singapore
- Strong and proactive client focus and long-term relationship perspective

Both tanker and bulk markets, as well as the container market, have been strong through 2003. There is a tendency towards fewer syndications and more bilateral transactions in the shipping market. Changes in the competitive climate led to increased competition for the best clients and thus pressure on margins.

Business profile

- Serving more than 49 000 businesses divided into two different segments:
 - Large companies with a turnover above NOK 40 million
 - Small and medium-sized enterprises with a turnover of up to NOK 40 million

The largest regional clients give priority to local presence combined with the expertise of a major bank. Through local financial services centres DnB is represented with a broad range of products, services and competencies. DnB has a sound platform for strengthening its position as the preferred provider of financial products and services for this customer segment.

DnB Finans

- DnB Finans is a leading finance company in Norway, offering car financing to retail customers and factoring, leasing and various other forms of financing and related services to the corporate and public sectors
- Figures for the first nine months of 2003 showed pre-tax operating profits before losses of NOK 250 million, compared with NOK 208 million for the corresponding period of 2002 due to increased income and sound cost control

Retail Banking

Retail Banking, serving private customers and smaller companies under the brand names Den norske Bank, Postbanken, and Vital is Norway's largest retail bank. The business area is headed by Kjell Thomassen, acting group executive vice president.

The business area aims to maintain its leading market position and stand out as the customer's best financial partner. This will be achieved by continually improving service concepts and expanding the range of services.

Comments to the financial performance for the January through September period

- Satisfactory profits - return on equity 21 per cent
- Higher net interest income, mainly due to increased lending and deposit volumes
- Reduced interest rate level puts pressure on deposit spreads
- Lending increased by more than 10 per cent, referring primarily to well-secured housing loans
- Costs increased by 2 per cent compared with the previous year through restructuring and efficiency measures
- Cost/income ratio decreased by 2.5 percentage points
- The volume of non-performing and doubtful commitments showed a moderate rise in the first three quarters of 2003, but was at a satisfactory level
- Loan losses were up NOK 51 million, but remained at a low level

Customers/markets

- Serving around 1.6 million private individuals
- 253 000 DnB customers subscribe to customer benefits programmes
- 636 000 clients use the Group's Internet banks. Postbanken.no is now Norway's largest Internet bank
- DnB.no has been ranked as "Norway's best Internet bank" in 2003 by Cap Gemini Ernst & Young
- More than 13 million payment transactions were carried out through the Internet banks in the first three quarters of 2003, an increase of 16.6 per cent compared with the first three quarters of 2002
- Rising market shares for loans
- Sales record within real estate broking

Organisation and distribution

Through Norway's largest distribution network, Retail Banking offers a wide range of financial products and services to its customers. The major distribution channels are:

- Den norske Bank and Postbanken's branch offices
- The postal network
- Internet and telephone banking
- Private banking targeting customers in need of more sophisticated financial advisory services, production, staff and support functions are largely centralised in cost-efficient joint units

Den norske Bank ASA and Norway Post have a master agreement relating to the distribution of financial services through the postal network, which is effective until 31 December 2005. The agreement is mainly based on transaction-specific prices and a common aim to increase the number of financial services distributed through the postal network.

- Postbanken and Norway Post have established joint service solutions provided through more than 1 100 in-store postal outlets, where customers can carry out everyday banking transactions in their local stores
- Payment transactions through these channels rose by 18.6 per cent to more than 6 million transactions from the first three quarters of 2002 to 2003

New products

- More than 195 000 customers have agreed to receive notices such as account statements via e-mail
- New index-linked investment products and equity-linked deposits
- More than 106 000 customers subscribe to Postbanken's new customer loyalty programme; "Postbanken Leve", offering customers a range of basic banking services at favourable terms
- Two new investment funds have been launched in 2003: "DnB Kompass" and "Postbanken Folkefond". These funds have flexible investment strategies including equity and money market funds and bonds

Employees

- The number of full-time positions has been reduced by 126 to 2 646 through restructuring and efficiency measures
- Changing customer needs and the introduction of new products make it vital to upgrade professional skills
- Upgrading of professional skills is achieved partly by educating and reallocating the existing workforce and partly by recruiting new staff
- More efficient production and distribution of services through new and better IT solutions, telephone and Internet banking is likely to lead to further reductions in the number of employees in the coming years

Cooperation with other group entities

Cross-selling of products is one of the major strengths of the DnB Group. Through its distribution network Retail Banking offers:

- Asset management services (DnB Asset Management)
- Insurance (Vital)
- Financial instruments (DnB Markets)

Residential real estate broking

DnB Eiendom and Postbanken Eiendomsmegling are two of Norway's leading residential real estate broking operations.

1) Management's estimates

- DnB Eiendom had 44 outlets located in Den norske Bank branches as at 30 September 2003
- Postbanken Eiendomsmegling operates through 60 franchises owned by independent real estate brokers
- In addition to broking income, the real estate broking operations generate business in the form of residential mortgages and savings

Consumer finance

- DnB Kort is responsible for the DnB Group's card-based services and consumer finance products
- DnB Kort showed healthy profits in the first three quarters of 2003. Pre-tax operating profits increased by NOK 63 million or 59 per cent compared with the previous year to NOK 170 million
- Average lending volume rose NOK 721 million to NOK 4 472 million from the first three quarters of 2002 to the first three quarters of 2003, stemming in part from increased sales of consumer loans
- During the same period there was a slight increase in non-performing and doubtful loans in line with expectations
- As at 30 September 2003, the DnB Group had issued more than 1.73 million cards
- Postbanken's new customer loyalty programme Postbanken Leve includes a Visa card (debit card) and a MasterCard (credit card) and has been very well received by the customers

Non-life insurance

Vital Skade, as the first company in Norway, developed a totally integrated virtual insurance site, where Internet bank customers can buy non-life insurance products (home, car, travelling etc.). Products are sold on a commission basis. Vital Skade assumes no risk on its own, but operates as an agent.

In 2002 Vital Skade was transferred to Retail Banking, which in addition to the Internet is the company's primary distribution channel. The reorganisation has led to more effective marketing. Vital Skade has entered into co-branding agreements with 13 academic associations offering non-life insurance products through custom-made service centers. The associations organize 72 000 members of which 36.5% are now customers of Vital Skade. Brisk sales through the Internet banks and several new co-branding agreements increased net operating income from NOK 26 million in the first three quarters of 2002 to NOK 42 million in 2003. Costs were on a level with the previous year.

Capital markets

DnB Markets, the capital markets arm of DnB, is Norway's largest capital markets operation and offers a wide range of securities and investment services. DnB Markets comprises the following units: Sales FX/Treasury, Trading FX/Treasury, Equities (Sales/Research), Corporate Finance and Securities Services. The Group Treasury and Equity Investments are organisationally part of DnB Markets though profits and losses for these units are not recorded under this business area. Ottar Ertzeid, group executive vice president, is head of DnB Markets.

DnB Markets aims to be the leading capital markets operation providing foreign exchange, interest rate and debt and equity financing services to Norwegian and Norwegian-related clients, as well as offering international customers services relating to Norway and the Norwegian krone.

Comments to the financial performance in the January through September period

- DnB Markets achieved record profits in the January through September 2003 period due to increased turnover in most areas
- Falling interest rates and substantial changes in the NOK exchange rate throughout the period led to increased demand for currency and interest rate hedging products and fixed-income securities
- The positive trend in the stock market stimulated activity within equities broking
- Expenses were brought down 2.3 per cent compared with the January through September period in 2002

The value of items on and off the balance sheet is affected by interest rate movements. The table below shows potential losses for DnB resulting from parallel one-percentage point changes in all interest rates. The calculations are based on a hypothetical situation where interest rate movements in all currencies are unfavourable for DnB relative to the Group's positions. Also, all interest rate movements within the same interval are assumed to be unfavourable for the Group. In the trading portfolio, such losses will be charged to the accounts as they occur. In the banking portfolio, the losses will be amortised over the remaining maturity. The calculations are based on the Group's positions as at 30 September 2003 and market rates on the same date.

2) Disability provisions are expected to be increased by around NOK 600 million in the course of 2003, of which NOK 147 million, NOK 146 million and NOK 147 million was charged to the first-, second- and third-quarter accounts, respectively

3) After approval by the Banking, Insurance and Securities Commission, Vital transferred funds exceeding the minimum requirement from the security reserve in 2002. The remaining security reserve totaled NOK 106 million at the end of September 2003

4) Profit for allocation to the owner and taxes for products subject to profit sharing includes:

- return on equity, subordinated loan capital and the security reserve, calculated as the company's return on capital, less accrued interest on subordinated loans and allocations to the security reserve
- 0.38 per cent of policyholders' funds
- 12 per cent of effective risk premium adjusted for survival risk on contracts providing sufficient profits

Profit for allocation to the owner and taxes cannot exceed 35 per cent of total profits for allocation to policyholders, the owner and taxes. If this figure is negative, the entire amount should be charged to the owner. Profit for allocation to the owner and taxes includes profits from operations not subject to profit sharing. Profit to the owner and taxes for the first three quarters of 2003 is 35 per cent of profit for allocation to policyholders, the owner and taxes.

5) Allocated capital represents ownership risk for Vital and is based on DnB's risk assessment model and is in excess of recorded capital

Products and organisation

Vital offers:

- Group pension schemes to businesses, adapted to customer needs for defined-benefit, defined-contribution and single premium pension schemes
- Long-term savings alternatives in the form of individual pension agreements and annuities in the retail market
- Products are offered with guaranteed returns or provided by Vital Link with a choice of investment profile (unit linked)
- Group life, endowment and personal insurance
- Savings products from other units in the DnB Group, including investment funds from DnB Investor and equity-linked bonds from DnB Markets

Vital is represented nationwide through its sales offices, on the Internet, through DnB and Postbanken's distribution networks and independent agents.

Changes made in the management structure of life insurance operations in 2002 included the establishment of business units for corporate clients, individual clients and the public sector as profit centres.

Employees

- Vital gives priority to retaining skilled employees and developing high levels of competence within insurance products, management and other relevant areas of expertise
- Vital staff comprised 599 full-time positions as at 30 September 2003, down from 635 a year earlier

Cross-sales/cooperation

- By taking advantage of the strength of the DnB Group's total distribution network, Vital will be well placed to enjoy continued market progress
- Vital's growth in the retail market is not least due to the company's extensive distribution network, where DnB channels play a principal role
- In the first three quarters of 2003, DnB accounted for 47 per cent of the sales of Vital's products in the retail market, compared with 43 per cent in the same period in 2002

Income

- Commission income increased by NOK 131 million relative to the first three quarters of 2002. This was due to the acquisition of Skandia Asset Management (SAM), which was included in the accounts as from 1 June 2002
- Relative to comparable operations in the first three quarters of 2002, commission income was down NOK 10 million. This was mainly due to the negative equity market development in 2002, which continued through the first quarter of 2003
- Gross margins have stabilised due to increasing equity values

Operating expenses

- Operating expenses in the first three quarters of 2003 were NOK 375 million, down NOK 85 million relative to expenses for comparable operations in the corresponding period of 2002. This was due to a significant global restructuring effort implemented ahead of plan, which will be finalised in 2003
- During the first half of 2003, NOK 58 million of restructuring provisions were utilised, leaving NOK 50 million in such provisions at the end of September

Nordlandsbanken

Nordlandsbanken as presented below serves shipping customers, small and medium-sized companies and the retail market. The presentation includes Nordlandsbanken's overall operations before integration with other business areas and the transfer of activities to Den norske Bank.

Nordlandsbanken ASA the largest entity in Nordlandsbanken, is headed by Morten Støver and is a regional bank headquartered in Bodø. The bank focus on the market in the county of Nordland in Northern Norway, aiming to become the best financial partner for customers in Nordland by combining local presence and DnB's overall expertise and extensive product range.

Measures to realise cost synergies were pursued, including moving operations to common premises in several cities, establishing a joint infrastructure for banking operations in Nordland, centralising collateral functions and loan administration to Bodø and outsourcing parts of credit production for the retail market to Den norske Bank. DnB's credit policy and processes have been adopted and hiring experienced credit officers from DnB have strengthened Nordlandsbanken's organisation.

The figures presented below are based on DnB's appraisal of values in the acquired operations and the principles for the presentation of business areas. Overall, these adjustments result in major deviations from Nordlandsbanken ASA's own financial accounts. See section 1 for details concerning the accounting treatment of the acquisition.

Comments to the financial performance for the first three quarters of 2003

- Satisfactory pre-tax operating profit before losses in the first three quarters of 2003
- The combined interest spread was 3.1 per cent for the January through September period
- Operating expenses down due to integration of operations
- Weak developments in parts of the corporate segment resulted in a high level of loan losses
- Net non-performing and doubtful commitments amounted to NOK 3.4 billion as at 30 September 2003

Customers and market development

- Around 8 000 active corporate customers
- Around 54 000 active retail customers

- The market situation continued to represent major challenges for some of Nordlandsbanken's customers
- Increase in the price for salmon and reduced interest rate level have had a positive effect for Nordlandsbanken's customers in the third quarter
- High priority was given to securing values, especially within fish-farming

Staff

- 367 full-time positions as at 30 September 2003, including positions in subsidiaries and positions transferred to Den norske Bank

Cooperation with other group entities

The integration of Nordlandsbanken with DnB's other operations will ensure close cooperation with respect to products and markets, and the transition to DnB's routines and systems.

DnB NOR Group

Merger with Gjensidige NOR

In August 2003, recommendations were presented by Norges Bank and Kredittilsynet (the Banking, Insurance and Securities Commission of Norway), along with a preliminary recommendation from the Norwegian Competition Authority, regarding the proposed merger between DnB and Gjensidige NOR. The first two institutions spoke in favour of the merger based on the conclusion that it will be beneficial for the development of a strong financial services industry in Norway as well as from a socioeconomic viewpoint. Still, Kredittilsynet emphasised the need to make minor changes in the new Group's operations within the life insurance area. The Competition Authority, on the other hand, was more negative in its initial assessment, maintaining that the merger could have unfortunate effects on competition in several areas. The merger partners sent a response to the Competition Authority, providing extensive documentation disputing the Authority's assessments. The parties have later initiated talks with the authorities to seek to come to a common understanding about the impact of the merger on competition.

The Competition Authority is expected to present its final recommendation shortly. If the Authority chooses to accept the merger, it can be implemented at the beginning of December. If the Authority reaches the opposite conclusion, however, the merger partners will submit the matter to the Norwegian government for a final decision.

Preparations for the merger with Gjensidige NOR were continued according to plan in the third quarter. The business areas have presented preliminary overall plans for operations in the new Group, and the top layers of the organisation have been determined. Restructuring plans have been specified in detail and synergy targets for the merger confirmed.
